Review date 15th September, 2026

Permission to review confirmed yes

What Guardian reported

The following is a technical observation from a bounded check. It is not a confirmed business problem until you review it.

Observation: Missing meta description, H1, canonical URL, and sitemap; security-header gaps.

Your review

- Is this observation accurate for your website? Yes
- Was the explanation easy to understand? Yes
- Does it affect your business or customers? Not sure
- Did you take any action after seeing it? No
- If action was taken, what did you change? I would love to input the missing aspects and also know what to put in it
- Was the issue prevented or resolved? No
- What evidence supports your answer? I haven't looked at it
- How useful was this result? 5
- Would you continue using Guardian? Yes
- What was the most valuable result? I would like to know what the issues is and how to resolve them immediately
- What is the most important missing capability? I have no idea
- May Guardian quote your feedback publicly without identifying private details? Yes

Return

Please return this completed form to the Guardian project owner. Your responses will be recorded separately from Guardian's technical results and will only be used for product validation unless you grant permission to quote them.
